- The amendment filed on August 8,2001 and proposed drawing amendment filed on August 7,2001 have been entered. Accordingly,
  - New claims 11-18 have been added;
  - Claims 1-10 have been amended; and
  - Specification has been revised.

# Allowable Subject Matter

- 2. Claims 1-18 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

The light assembly decorating kit disclosed by the applicant generally comprises the following features:

- An elongated light assembly having top wall, a pair of ends and a pair of fluorescent bulbs;
- The light assembly being hanged from the ceiling with a pair of cables each coupled adjacent to an opposite end of the top wall and extending through one of the opening;
- The light assembly further having an open bottom side;
- The light assembly being substantially transparent and made of plastic material;

Application/Control Number: 09/552,834

Art Unit: 2875

- The light assembly being coupled to a power source.

The above-indicated light assembly decorating kit disclosed by the applicant is known in the art. However, the prior art of record fails to show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose proper motivation for combining the following features:

- An elongated light assembly having comprising a light housing (light shade) shaped generally resembling a car as recited in claims 1,10 and 11;
- The light housing positioned between the ceiling and light assembly as recited in claims 1,10 and 11;
- A plurality of accessories for decorating an exterior surface of the light housing as recited in claims 1,10 and 11.

The combination of the above-indicated features including "a light housing (light shade) shaped generally resembling a car" makes this disclosure unique.

Neither combined nor individual teachings of Lewis et al. (US Patent No. Des 308,113), Davidson et al. (US Patent No. 3,917,264), Van De Kop et al. (US Patent No. 4,882,676) teaches the features claimed by the applicant.

Claims 2-9 are necessarily allowed because of their dependency on the allowed base claim 1.

Claims 12-18 are necessarily allowed because of their dependency on the allowed base claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

Application/Control Number: 09/552,834

Art Unit: 2875

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
